ABOUT ME

Perseverance and determination are my strongest qualities. I'm not afraid of challenges and I'm focused on problem-solving. I'm a frontend developer prepared to contribute to solving the company needs with interactive, user-friendly, and responsive websites with CSS, Javascript and React JS. I'm very excited to be part of a web developers' team to deliver efficient web solutions.

EXPERIENCE

OCT 2022 - PRESENT

FRONTEND DEVELOPER
DEUSLINK SOFTWARE

Since october 2022 I've been working for a US development agency. My main task is to solve the requirements of client websites from USA and Canada. Currently, I use HTML, CSS, Vanilla JS, Tailwind CSS, Shopify Liquid, GIT and Github.

JAN 2022 - PRESENT

FRONTEND PROJECTS

Since January 2022 I've built amazing projects focused on Frontend Web Development with Javascript Vanilla, React, and React Native. You can find each project in my modern portfolio and you could see the code, technologies I've used, and its website to see a demo. See Portfolio

AUG 2019- AUG 2020

INVENTORY SUPERVISOR
PATUCEL S.A. DE C.V.

Inventory project from scratch. I planned the barcode logic with a formal billing system. More than 8000 different tech products were added to the system. Also, I prepared the monthly inventory plan in the stores using the company's software.

TOOLS/KNOWLEDGE

Abode Photoshop: Intermediate	GIT/ GITHUB: Intermediate	React Native: Basic
Meta Business Suite: Advanced	JavaScript: Intermediate	React: Intermediate
